## LATEST RE BOOSTERS

The Limes, like the rest of primary care, did not have any pre-warning about the announcement of the government's desire to offer booster vaccinations to everyone before the end of the year. We have sessions already booked for December and January which will offer 3000 booster doses but we also have many GP, Physician Associate and Nurse clinics planned which are already heavily pre-booked in this busy time. We are also currently unaware whether vaccine supply will be available for a more rapid deployment, an issue which has been the main limiting factor throughout the year. We will update these posts as we get more information.

**Please do not call the surgery as it is causing huge congestion of the lines.**

When we are able to offer a booster dose to you we will be in contact. In the meantime, if there is the option to be vaccinated at alternate sites through the National Booking System then we would advise taking that opportunity.

Stay safe and Festive Best Wishes from the Partners and Staff  
of The Limes
